

Focus on Commercialisation

Vandis delivers a range of services to assist businesses that provide technology based products and services.

These companies face a unique set of challenges in the alignment of technology management and business management in a volatile market against stiff competition for their clients attention, loyalty and priorities.

Vandis provides technology management advice to assist their business structures and business management advice to assist their technologists. We provide innovative, practical, commercial benefit to our clients.

Technology Commercialisation

Product Development and Strategic Marketing

Service Delivery Management

Management and Governance

Commercialisation Mentoring / Directorships

Commercialisation Angels

Vandis are a flexible, hands-on, facilitating, results based company focussed on achieving genuine commercial outcomes to help you maximise your business opportunities.
